

Students of Woodrush Academy, Worcestershire

Mar 22, 2022 10:31 GMT

Woodrush Academy Students & Railway Volunteer Group deliver a world first

Secondary school students at Woodrush Academy, Worcestershire, who volunteer at their nearby railway station at Wythall, have built a smartphone-based adventure for the Shakespeare railway line as part of their IT studies.

It's the first geocaching adventure in the world to be based on the route of a railway line is the view of USA based [Geocaching.com](https://www.geocaching.com), the global operator of geocaching activities.

The *Friends of the ShakespeareLine (FOSL)*, voluntarily look after and support

over 90 volunteers as part of the Community Station Partnership that covers all 21 stations between Birmingham and Stratford upon Avon. FOSL asked Woodrush Academy if the students could build a smartphone-based geocaching adventure for the Shakespeare Line railway route to enable visitors, particularly families, to enjoy the hidden gems along the line.

The students at Woodrush, who also carry out planting, artwork and biodiversity activities at the railway station, jumped at the chance, and the result is the "Shakespeare Line" adventure. Officially launching on the smartphone-based app "Adventure Lab", which [Geocaching.com](https://www.geocaching.com) provides at; <https://www.geocaching.com/sites/adventure-lab/en/>

"Adventure Lab is a new app from Geocaching HQ that allows you to create, play and share unique outdoor scavenger hunts, experiences, and games," said Bryan Roth, Geocaching HQ co-founder and president. "There are currently more than 30,000 Adventures worldwide, and we're excited that the community will be able to learn more about the Shakespeare Line thanks to the efforts of Woodrush Academy students and *The Friends of the ShakespeareLine.*"

The adventure encourages people to use the train to visit the locations along the line to find information or answers to complete the experience.

Andrew Reece from Woodrush High School said, **"The students have enjoyed creating this app to encourage the public to explore the railway line and see what's on offer in the local communities at each station. Students researched the local areas and developed their ICT skills as they worked on creating the features and functions of the app supported by their ICT teacher Mr Cuffe. This is another example of Woodrush students engaging with the local community whilst enhancing pupils' skills and ability to work in a team."**

Fraser Pithie, who leads the Friends of the Shakespeare Line group of volunteers, added, **"We are pleased to be the first railway line in the world, and consequently the UK, to have a smartphone-based geocaching adventure based on a railway route. The students and staff at Woodrush Academy have done the line and local economy proud with the work they have done to develop the adventure.**

"The Shakespeare Line has lots of little gems along its route for people and families to explore on a day out. What we have developed here is a leading

element to help increase usage of the train through a leisure-based activity that also supports the local economy"

[West Midlands Railway](#) (WMR), who operate the train service along the route, have also wholeheartedly welcomed Geocaching's Adventure Lab app and the students' work at Woodrush Academy.

Fay Easton, WMR's head of stakeholder and community, says, "***Over the past two years, the Friends of The Shakespeare Line have worked tirelessly at our stations for the benefit of local communities and passengers. Their works in landscaping, arts and local tourism have been stunning, and the launch of this rail-based adventure as a 'world first' is a remarkable project delivered by the volunteers and one that will help attract passengers to the railways. I, for one, cannot wait to sign up to the Adventure Lab.***"

About West Midlands Trains

For further information on this release, call our press office on 03300 955150 or email press.office@wmtrains.co.uk

West Midlands Trains operates both West Midlands Railway and London Northwestern Railway services.

- **London Northwestern Railway** services operate between Liverpool and Birmingham, and on the West Coast Main Line to and from London Euston.
- **West Midlands Railway** services operate to destinations across the West Midlands via Birmingham New Street and Birmingham Snow Hill.

For more information on these services visit westmidlandsrailway.co.uk or londonnorthwesternrailway.co.uk
